

INNOVATIVE PRODUCTS FOR THE LOADING DOCK INDUSTRY

PROUDLY
MANUFACTURED
IN THE USA

AeroTecTM AC PATENTED

Dock workers can often face extreme temperatures while working inside a trailer. Temperatures inside a trailer can reach up to 130° F. Once again, DL Manufacturing has come up with a serious solution for a serious problem. AeroTecAC will provide safe conditions inside the trailer. AeroTecAC works by taking conditioned air and circulating it throughout the entire trailer in a high-velocity column reducing temperatures in the trailer within seconds. Temperatures can be reduced up to 30 degrees. Our patent pending design is simple yet effective.

Keeping cool conditions in the trailer at the loading dock provides better employee comfort and improves productivity while making for a safe work environment.

Model Specifications – AeroTecAC Package includes:

Modified Super AeroTec

- 1/2 hp split capacitor motor
- 115V 8.8 AMP, 277V, 460V also optional
- 1200 CFM (cubic feet per minute)
- 6100 ft/min velocity @ 20' (free air)
- Length is 4ft. Weight 60 lbs
- 24" Mounting Bracket

Transition & Mounting Brackets

- Coil Bracket & Coil Filter Bracket
- Yellow plastic transition hose up to 6' in length
- Yellow plastic elbow

Air conditioning system provided by others.
