

# Pepsi

Calgary, AB

## Project Overview

The previous head curtains at Pepsi's facility in Calgary Alberta had become torn and were no longer sealing properly as a result. Consequently, cold air and white light were entering the facility.

They contacted Northern Dock Systems, to replace and install new head curtains to properly seal up their facility. The new dock wedge-type head curtains provide a proper seal when trailers are in position. As a result, they no longer have to worry about air or light being able to enter from the top of the seals. Furthermore, the tight seal is providing a more comfortable temperature and safer work environment for employees and the products that they produce.

- ✓ Tight seal
- ✓ Workplace productivity
- ✓ Improve safety
- ✓ Indoor comfort
- ✓ Energy-savings
- ✓ No white light
- ✓ Pass audits

## Featured Products

### Dock Wedge-Type Head Curtain Replacement

Durable and abrasion resistant fabric creates a tight seal to block harsh weather, white lite and pests.

Custom built to ensure perfect seal and save on energy costs.
