

Preventive Maintenance Program
Air-Powered Dock Leveler for a Food & Retail Location

Wetaskiwin, AB

Debris from dock pits

Project Overview

To prevent downtime and safety hazards from dock levelers failing, this food retail location in Wetaskiwin Alberta schedules regular [preventive maintenance inspections](#) on their [air-powered docks](#).

During a preventive maintenance inspection, our technician will:

- Inspect structural components for safety issues such as broken welds
- Inspect toe guards for safety issues
- Inspect airbags for any punctures, tears or damage
- Lubricate hinges, springs and pull action chain
- Clean pit of debris and garbage

This grocery and retail location is making sure to do their due diligence with these regular PMP visits. As a result, they are fully prepared for safety inspections and food audits. Along with being able to reduce repair costs by fixing avoidable damage before it becomes a problem.

- ✓ Preventive maintenance
- ✓ Improve safety
- ✓ Extend equipment lifespan
- ✓ Prevent equipment failure
- ✓ Decrease downtime
